This Month in Your Garden

Plant- The winter garden shows the "bones" of your landscape so if it looks sparse and unattractive during the winter months, consider adding some **cold hardy shrubs** that look good year-round. Add winter color, such as **primroses, violas, calendula,** and **alyssum** to pots and spaces that you view from windows or doors.

Protect- Apply dormant disease control sprays on your fruit trees. Copper sprays such as **Monterey Liquid-Cop** (copper ammonium complex) or organic Copper Soaps (OMRI) are now the only choices. We also suggest you add **Summit Horticultural Oil Spray** or **Saf-T-Side** certified organic oil to the copper spray (not to the copper soaps).
